

Strength in Numbers?

Insurance Interest Survey

ONSA has continued to explore the possibility of offering group insurance as a potential membership benefit; however, the reality is that without a substantial number of actual participants, it is not possible to obtain quotes, compare rates, or evaluate the viability of group insurance programs.

Which brings us to the survey below, which is a few simple questions to assess which plans have the greatest interest among Oregon's neighborhood store owners. ONSA needs to hear from our readers, **both members and non-members**, to determine the level

of interest (if any) in the types of insurance listed below. You **need not** be a current paid member to reply to the survey.

But, please, if you have **any** interest in reviewing a group plan and comparing with your existing rates, we need to hear from you.

Remember, you are only indicating your **potential interest**. But, if ONSA does not receive an adequate number of responses indicating an interest exists, then the idea of an association sponsored insurance plan will be abandoned and ONSA will focus on other member benefits. ■

Please return your survey to ONSA by April 11, 2008.

It is not necessary to provide your name at this time.
